("MYM") by Biome Grow Inc. and its subsidiary, Cultivator Catalyst Corp. 17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

Global economies are currently experiencing elevated inflation which could curtail levels of economic activity, including in Issuer's primary production markets. This inflation is predominantly driven by costs of goods as input costs continue to increase with the overall increase in costs caused by several external factors including but not limited to general uncertainties caused by the Ukraine war, the global supply chain constrictions and rising energy prices. As such, delivery and distribution costs, utility costs and other necessary supplies at an economic cost cannot be assured. These are integral requirements for the Issuer's business and it is reasonable to expect that inflation, supply shortages or increases in demand could impact the Issuer's future economic performance and competitiveness, as it may entail a meaningful increase in costs for various goods and services that the Issuer may not be able to pass onto patients or customers. In addition, the operations of the Issuer could be affected by the economic context should interest rates, inflation or unemployment levels reach levels that consumer trends and spending and, consequently, impact the sales and profitability of the Issuer.

The war in Ukraine may also have a material adverse effect on global economic activity and could result in volatility and disruption to global supply chains and the financial and capital markets. These disruptions could cause interruptions in supplies and other services from third parties upon which the Issuer relies; decrease demand for products; and cause staff shortages, reduced customer traffic, and increased government regulation, all of which may materially and negatively impact the business, financial condition and results of operations of the Issuer, its subsidiaries and Focus Medical.

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
