Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

- On January 12, 2024, the Issuer announced that the final sixth payment of the Oranim Pharmacy Acquisition and the reconciliation between the parties regarding the remaining transaction payments are being rescheduled to April 15, 2024. Through the transaction, completed on March 28, 2022, IMC Holdings Ltd. acquired 51% of the rights in Oranim Pharm Partnership through the acquisition of Oranim Plus. As part of the transaction consideration, NIS 5,363K or 1,930K CAD were supposed to be paid in six installments throughout 2023, with the final payment due February 15, 2024. Through a new amendment signed January 10, 2024, the sixth (6) payment as well as the reconciliation between the parties regarding all remaining unpaid installments has been postponed to April 15, 2024. All six installments (that remain unpaid) will incur a 15% interest charge. Failure to meet the remaining payments will result in the transfer of IMC Holdings Ltd. shares (51%) back to the seller, along with the revocation of the transaction.
- On January 31, 2024, the Issuer announced that that it has received a 180 calendar day extension, until July 29, 2024, from the Nasdaq Stock Market ("Nasdaq"), to regain compliance with Nasdaq Marketplace Rule 5550(a)(2) (the "Bid Price Rule").

The Bid Price Rule stipulates that the bid price of the Issuer 's common stock must close at \$1.00 per share or more for a minimum of 10 consecutive business days. On August 1st, 2023, the Issuer received notice from Nasdaq that based on the previous 30 consecutive business days, the Company's listed security no longer met the minimum \$1.00 bid price per share requirement. Therefore, in accordance with the Bid Price Rule, the Issuer was provided 180 calendar days, or until January 29, 2024, to regain compliance. The listed security has not regained compliance with the minimum \$1 bid price per share requirement. However, Nasdaq's Staff has determined that the Issuer is eligible for an additional 180 calendar day period, or until July 29, 2024, to regain compliance. The Issuer will continue to monitor the closing bid price of its common stock and plans to pursue available options to regain compliance with the Bid Price Rule, including potentially pursuing a reverse stock split. If the Company authorizes a reverse stock split, it will plan to effectuate the split no later than ten business days prior to the end of the extension in order to regain compliance.

Not Applicable.

16. Provide details of any changes in directors, officers or committee members.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

Global economies are currently experiencing elevated levels of inflation, including in the Issuer's primary production markets, which could curtail levels of economic activity. Inflation concerns are in part driven by the increase in the cost of goods as input costs continue to increase due to several external factors, including but not limited to, general uncertainties caused by the Ukraine war, the global supply chain constrictions and rising energy prices. As such, delivery and distribution costs, utility costs and other necessary supplies at an economic cost cannot be assured. The impact of inflation and supply shortages on the integral components of the Issuer's business could reasonably impact the Issuer's future economic performance and competitiveness, as it may entail a meaningful increase in costs for various goods and services that the Issuer may not be able to pass onto patients or customers. In addition, the Issuer's operations could also be affected should interest rates, inflation or unemployment reach levels that change consumer trends and spending and subsequently impact the sales and profitability of the Issuer.

The war in Ukraine may also have a material adverse effect on global economic activity and could result in volatility and disruption to global supply chains and the financial and capital markets. These disruptions could cause interruptions in supplies and other services from third parties upon which the Issuer relies; decrease demand for products; and cause staff shortages, reduced customer traffic and increased government regulation, all of which may materially and negatively impact the business, financial condition and results of operations of the Issuer, its subsidiaries and Focus Medical.

As of February 2023, and to date, Israel is undergoing political and social instability relating to the judicial and legislative reforms proposed by the newly elected government, creating certain instability and uncertainty. This instability which has a certain effect on the activity of the financial markets may cause material impact on the Issuers' ability to operate in the Israeli market.

The Israeli ministry of health announced the anticipated medical cannabis regulatory reform on August 7, 2023 (the "Reform"). The new regulations will remove many of the heavy regulations in the sector, making medical cannabis more accessible to patients as well as boosting export, all of which may materially and positively impact the business, financial condition and results of operations of the Issuer, its subsidiaries and Focus Medical. On December 8, 2023, the Issuer announced a 3-month delay of the anticipated Reform. Due to the Israel-Hamas war, the anticipated implementation of the Reform, originally scheduled for December 29, 2023, has been postponed by three months. For further explanation please see section 1 above.

On October 7, 2023, a war between the terror organization Hamas and Israel began. This war has an impact on the company's business operations. The company has suffered a negative impact in Q4 2023 and there will be a potential positive effect in the medium to long term. The company has experienced damages to its ability to function, affecting various aspects, including employees, supplies, imports, sales, and more.

While there are damages, it is still too early to fully assess the extent of their impact. However, the first and certain effect of the war is the postponement of the medical cannabis reform, which was initially set to commence on December 29, 2023.

Additionally, based on data published by the Ministry of Health through the medical cannabis unit, there has been a significant increase in the number of patients with medical cannabis licenses since November 2023 and until now. At this stage, the Issuer is unable to assess whether this is a direct effect of the war, but it will likely be possible to evaluate this in the coming months.

Furthermore, the Israeli government has published a compensation outline in response to the impact of the war on businesses in Israel. The Issuer has submitted all the required forms according to the outlined criteria and has started to receive advances on future payments, though the full scope and timetables for their receipt are not yet known to the Issuer.
