Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

- **On April 1, 2024, the Company announced the implementation of the medical cannabis regulatory reform in Israel starting as of April 1, 2024.**

The reform, announced by the Israeli ministry of health on August 7, 2023, underwent a three-month delay due to the Israel-Hamas war following its initial announcement (the "Reform").

The Reform will be implemented in phases, as approved, and announced by the Israeli Ministry of Health. The key aspects of the initial phase, commencing today, April 1 st, are as follows:

1. Change in the prescription process: patients with a wide range of diseases and medical conditions from Oncology to Parkinsons will no longer be required to obtain a license to receive medical cannabis. Patients will receive a prescription similar to those for other prescription medications. Pain and PTSD are not included in the Reform yet.

2. Medical cannabis will now be prescribed through the HMO's, Israel's public healthcare system: until the Reform, cannabis could not be prescribed through the HMO's which cover the majority of the Israeli population.

3. The number of prescribing physicians is expected to increase: as of today, HMO physicians, who are dully trained and certified within their field of expertise, can prescribe medical cannabis as a first line treatment, as opposed to a last resort, based on medical discretion for the approved indications. 4. The cost for prescription is anticipated to be reduced: the Ministry of Health limited the cost for a medical cannabis prescription.

- On April 4, 2024, the Issuer and Avant Brands Inc , jointly announce the signing of an international trademark licensing agreement (the "Licensing Agreement") granting Adjupharm GmbH, IMC's German subsidiary ("Adjupharm" or "IMC Germany", as applicable), the exclusive right to launch the BLK MKT™ brand in the German medical cannabis market. The Licensing Agreement constitutes another major milestone with respect to the relationship between the two cannabis companies. Under the terms of the Trademark License Agreement, Avant's subsidiary will grant IMC Germany the license to utilize Avant's BLK MKT™ cannabis brand for use on their medical cannabis products. All such products will contain cannabis cultivated exclusively by Avant and subsequently exported to Germany. The collaboration between the two companies anticipates a positive outcome in the emerging German medical cannabis market, especially following the recent legalization by the government on April 1 st. The Licensing Agreement signals the Issuer's commitment to implementing a premium strategy in Germany as well as in Israel and acts as another step to establish Avant's position in the ultra-premium segment in Israel and Germany. The Issuer and Avant have had a productive partnership so far, combining Avant's premium cannabis products with The Issuer's sales, marketing and distribution expertise in Israel. Both companies believe the Licensing Agreement will enhance the companies' capabilities to meet the demands of the German market.
- On April 9, 2024, the Issuer announced that it entered, through its subsidiary, a strategic distribution agreement with Vessel Brand Inc, a subsidiary of Flora Growth Corp. ("Flora"), a global consumer-packaged goods leader and pharmaceutical distributor, headquartered in Carlsbad, CA. The Issuer's brands are well known in the premium Israeli cannabis market, facilitating the import and wholesale of premium medical cannabis through retail pharmacies, online platform, and distribution center. Vessel is a premium cannabis accessories brand with a wide range of products.
- On April 16, 2024, the Issuer announced that further to the news release dated January 12, 2024, the Issuer has decided not to make remaining installment payments installments (i.e. NIS 5,873K including interest or 2,154K CAD) by IMC Holdings, and as such will transfer the 51% shares held by IMC Holdings back to the seller.

("Focus Medical").

By exiting the Canadian cannabis market, Management is seeking to focus its resources and maximize efficiency for future success. Not Applicable.

16. Provide details of any changes in directors, officers or committee members.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

Global economies are currently experiencing elevated levels of inflation, including in the Issuer's primary production markets, which could curtail levels of economic activity. Inflation concerns are in part driven by the increase in the cost of goods as input costs continue to increase due to several external factors, including but not limited to, general uncertainties caused by the Ukraine war, the global supply chain constrictions and rising energy prices. As such, delivery and distribution costs, utility costs and other necessary supplies at an economic cost cannot be assured. The impact of inflation and supply shortages on the integral components of the Issuer's business could reasonably impact the Issuer's future economic performance and competitiveness, as it may entail a meaningful increase in costs for various goods and services that the Issuer may not be able to pass onto patients or customers. In addition, the Issuer's operations could also be affected should interest rates, inflation or unemployment reach levels that change consumer trends and spending and subsequently impact the sales and profitability of the Issuer.

The war in Ukraine may also have a material adverse effect on global economic activity and could result in volatility and disruption to global supply chains and the financial and capital markets. These disruptions could cause interruptions in supplies and other services from third parties upon which the Issuer relies; decrease demand for products; and cause staff shortages, reduced customer traffic and increased government regulation, all of which may materially and negatively impact the business, financial condition and results of operations of the Issuer, its subsidiaries and Focus Medical.

As of February 2023, and to date, Israel is undergoing political and social instability relating to the judicial and legislative reforms proposed by the newly elected government, creating certain instability and uncertainty. This instability which has a certain effect on the activity of the financial markets may cause material impact on the Issuers' ability to operate in the Israeli market.

On October 7, 2023, a war between the terror organization Hamas and Israel began. This war has an impact on the company's business operations. The company has suffered a negative impact in Q4 2023 and there might be a potential positive effect in the medium to long term. The company has experienced damages to its ability to function, affecting various aspects, including employees, supplies, imports, sales, and more. While there are damages, it is still too early to fully assess the extent of their impact.

The Israeli ministry of health announced the anticipated medical cannabis regulatory reform on August 7, 2023 (the "Reform"). The new regulations will remove many of the heavy regulations in the sector, making medical cannabis more accessible to patients as well as boosting export, all of which may materially and positively impact the business, financial condition and results of operations of the Issuer, its subsidiaries and Focus Medical. On December 8, 2023, the Issuer announced a 3-month delay of the anticipated Reform that was originally scheduled for December 29, 2023, due to the Israel-Hamas war.

The Reform will be implemented in phases, as approved and announced by the Israeli Ministry of Health. The key aspects of the initial phase, commencing April 1st, are as follows:

1. Change in the prescription process: patients with a wide range of diseases and medical conditions from Oncology to Parkinsons will no longer be required to obtain a license to receive medical cannabis. Patients will receive a prescription similar to those for other prescription medications. Pain and PTSD are not included in the Reform yet.
2. Medical cannabis will now be prescribed through the HMO's, Israel's public healthcare system: until the Reform, cannabis could not be prescribed through the HMO's which cover the entire Israeli population.
3. The number of prescribing physicians will increase: as of today, HMO physicians, who are dully trained and certified within their field of expertise, can prescribe medical cannabis as a first line treatment, as opposed to a last resort, based on medical discretion for the approved indications.
4. The cost for prescription will be reduced: the Ministry of Health limited the cost for a medical cannabis prescription.

"Anti-Dumping" investigation into cannabis imports from Canada

On January 18, 2024 , The Commissioner for Trade Levies at the Ministry of Economy and Industry, announced by virtue of his authority according to Section 24(d) of the Law on Trade Levies and Defence Measures, 5591 – 1991, of his decision to open an investigation on his own initiative into the export import of cannabis from Canada, after he found that special circumstances of actual damage exist or the probability of actual damage to the local manufacturing industry and a causal link between the imported imports and said damage.

The Ministry of Economy and Industry issued a formal notice to the public to respond to questionnaires regarding the "Anti-Dumping" investigation.

The Issuer has submitted on March 10, 2024 the relevant questionnaires regarding Focus Medical Herbal Ltd, IMC Pharma Ltd and Rosen High Way Ltd, it's related company and subsidiaries, respectively.

Germany - BfArM Regulation

The German Bundestag approved the federal government's draft law "on the controlled use of cannabis" (BT Drs. 20/8704, BT Drs. 20/8763, BT-Drs. 20/10426) on Friday, 23 February 2024. The draft passed in the German Bundesrat on Friday, 22 March 2024, and essentially came into force on April 1, 2024 in accordance with Art. 15 of the draft. Some components of Article 1 of the draft, which deals with so-called consumer cannabis, will not come into force until July 1, 2024 (according to Art. 15 para. 2 of the draft). This also has direct consequences for medicinal cannabis, which is the subject matter of Art. 2 (Medical Cannabis Act - MedCanG) and 3 (BtMG) of the draft. With the entry into force of the draft law, cannabis is no longer a narcotic by definition and is therefore no longer subject to the BtMG. The change in regulation has already led to rapid expansion within the first month, driven by the number of new patients entering into the market, highlighting the importance of a stable supply chain able to respond quickly to increases in demand.
